

Create your vampire!

step 1

Who bit you?

Think about the last time you were grateful. Who was it, that inspired that feeling? This person probably bit you.

step 2

Your Name and Age

Choosing a name either from your sire or someone/someplace that was important in your childhood.

*Your age: Last time you were hugged or kissed times 100 plus your birthday.
(two days ago: $2 \times 100 + 24 = 224$)*

step 3

Your Personality

How would you like to be as a vampire? What would you change, if you could re-invent your personality?

>. the noble .<

you are of noble upbringing, perhaps from one of the famous vampires (Dracula, Lestat, Drusilla).
add a „van“ (or equivalent in your country) to your name to signify your status. you do not dare feed on anyone of lowly rank, only the upper class will suffice.

>. the tourist trap .<

unsuspecting people that are not from around here are the perfect snack, they are confused and need help constantly, you are there to provide it!

>. the genuine .<

you are actually genuine and like to help people. Too bad that you now need this to survive.

>. the elaborate schemer .<

you plan your meals carefully and in minute detail, only to sometimes end up with take out after all, because your scheme fell through. In any case: planning is half the thankfulness (or fun).

>. the foody .<

you travel the world (or your city) to seek out its special tastes. Something you can only find here, is well worth a bit of extra travel to a specific location.

>. the fast foody / the snacker .<

small snacks, quick and convenient. You don't care that these are sometimes not the healthiest options about, after all it's just takeover.

>. the meal prepper .<

sit down once and prepare your meals for the week, efficient and sometimes repetitive. But there's always room for a spontaneous snack somewhere, we're sure.

>. the glitter unicorn .<

SPRINKLES! loud and extravagant, they will dazzle their prey with glitter and rainbows, after all who isn't thankful for a bit of colour in their dreary lives.

>. the shadow .<

dark like a shadow, you will hardly notice they were there, but they've quietly left the most extraordinary gift that perfectly hit the spot - gratitude guaranteed.

>. make up your own .<

don't want to fit into pre-made ones? Mix them together for something unique or create your very own original and fun.
